Survey of Undergraduate Religion and Theology Programs Data Analysis: Initial Data Run Packet Methodology

Copyright 1999 – 2003 American Academy of Religion

We suggest that you familiarize yourself with the Survey of Undergraduate Religion and Theology Programs Questionnaire (available at <http://www.aarweb.org/department/census.pdf>) prior to reviewing this document.

Analysis of the *Survey of Undergraduate Religion and Theology Programs Data* conforms to the following format:

Research Question: The AAR posed approximately 45 questions to guide the initial data analysis. Relevant questions are included prior to each table, and the full set of questions is included in Appendix A. Often one table or statistical procedure would not answer the question posed.

Table Heading: The headings for the tables are indexed to the research questions and also refer to the relevant Survey questions. The heading also gives some indication of the type of table or output represented. Thus, in a table with the heading **5.02: A1*D2:**

- 5.xx – indicates that this table is answering research question #5: “What is the relationship between institutional affiliation and faculty profiles [cross tabulate A1 with D1-D13]?”
- x.02 – indicates that this table represents the second table in the series of tables related to research question #5.
- A1 – indicates the Survey question A1:
A1. Which of the following descriptions best characterizes your institution?
(Mark (X) only one.)
1 __ Public
2 __ Private, non-sectarian
3 __ Catholic
4 __ Jewish
5 __ Protestant
6 __ Other religion
- * - indicates a cross tabulation. Most research questions ask for cross tabulations, but in some cases other types of data analysis are utilized and indicated.
- D2 – indicates the Survey question D2 (note that D2 is the female counterpart to D1):
D1-D2. In the 1999-2000 academic year, how many positions (i.e. salary lines) did your department or program support?

Full-time positions –	Male (D1)	Female (D2)
Tenured positions	a. _____	a. _____
Tenure track positions	b. _____	b. _____
Long-term contract positions	c. _____	c. _____
Terminal contract positions	d. _____	d. _____

Joint appointments e. _____ e. _____
Part-time positions (Include lecturers, adjuncts, etc. Do not include your institution's graduate students or any persons counted on lines a to e.) f. _____ f. _____

Survey Questions: For easy reference to the Survey question being addressed in the table, the text of all Survey questions has been included following each table.

APPENDIX A: Undergraduate Survey Data Analysis: Database Queries

Relationships by Affiliation

1. What is the relationship between institutional affiliation [A1 1 through 6] and the description of the department or program [A3 – A8]?
 2. Rank the number of undergraduate religion majors [A61] by institutional affiliation [A1 1 through 6]
 3. Rank the number of undergraduate religion minors [A71] by institutional affiliation [A1 1 through 6]
 4. What courses [B1 a through dd] are the most likely to fulfill general education requirements? [B4a1 – dd1]? Rank all of the courses by percentage, beginning with the highest percentage first.
 5. What is the relationship between institutional affiliation and faculty profiles [cross tabulate A1 with D1-D13]?
 6. What is the relationship between institutional affiliation and course offerings [cross tabulate A1 with B1 to B4]?
 7. What is the relationship between institutional affiliation and undergraduate education [cross tabulate A1 with C1 – C8]?
-

Women in the Profession

8. How many full-time women faculty were at each of five ranks in 1996-1997? [The sum of each category D13 a to D13 e]
 9. How many full time women faculty were at each of five ranks in 1999-2000? [The sum of each category D2a to D2e]
 10. What is the ratio in 1999-2000 of the number of full-time women to full-time men in each of four academic ranks? [D6a to D5a; D6b to D5b; D6c to D5c; D6d to D5d]
-

Adjunct Faculty

11. What is the total number of courses taught by faculty members who were paid at a per-course rate [D7]? [The sum of the numbers]
 12. What is the mean and median number of courses taught by part-time faculty [D7]?
 13. What is the mean and median pay per course for part-time faculty [D8]?
 14. What is the total number of part-time men faculty reported in 1999-2000 [D1 f]? [Sum of the numbers]
 15. What is the total number of part-time women faculty reported in 1999-2000 [D2 f]? [Sum of the numbers]
 16. What is the total number of part-time men faculty reported in 1996-1997 [D12 f]? [Sum of the numbers]
 17. What is the total number of part-time women faculty reported in 1996-1997 [D13 f]? [Sum of the numbers]
-

18. What is the ratio of women adjuncts in 2000 [D2f] to men adjuncts in 2000 [D1f]?
 19. What is the ratio of all adjuncts [D1f plus D2f] to all full time faculty [D1a – e plus D2 a – e] in 2000?
-

Classification of Adjunct Faculty

20. Classify the responses to questions 11 – 19 in terms of the various descriptions of departments or programs [A3 1 through 5.]
 21. Classify the responses to questions 11– 19 in terms of undergraduate course offerings in B1 a through B4 dd (that is, *each* of the responses to all of the items in the left column on page 4 of the Questionnaire.) NB: This query was *not* performed, and, thus, does not appear in the tables.
 22. Classify the number of part-time men faculty in 1999-2000 [D1 f] by the affiliation categories in A1 1 through A1 6.
 23. Classify the number of part-time women faculty in 1999-2000 [D2 f] by the affiliation categories in A1 1 through A1 6.
-

Aggregate Numbers

Number of Majors

24. What is the total number of undergraduate religion majors in 1999-2000 [C7 a]? [The sum of the numbers]
25. What is the total number of undergraduate religion majors in 1996-97 [C7 b]? [The sum of the numbers]
26. Based on a universe of 1131 departments, with 897 responding, can you mathematically estimate the number of religion majors in 1999-2000? And in 1996-97?

Number of Courses

27. What is the total number of undergraduate religion courses offered in 1999-2000 [C1 a]? [The sum of the numbers]
28. What is the total number of undergraduate religion courses offered in 1996-1997 [C1 b]? [The sum of the numbers]
29. Based on a universe of 1131 departments, with 897 responding, can you mathematically estimate the number of religion courses offered in 1999-2000? And in 1996-97?

Department Characteristics

30. What is the total number of responses in each of the responses regarding descriptions that best characterize departments or programs [A3 1 through A3 5]?
31. What is the total number of responses regarding which departments or programs offer an undergraduate major in religion [A6 1]? [The sum of the numbers]

32. What is the total number of responses regarding the number of departments or programs that offer an undergraduate minor in religion [A7 1]? [The sum of the numbers]

Courses

33. What is the total number of responses in each category regarding undergraduate courses offered in 1999-2000 [B2 a through B2 dd]?
34. What is the total number of responses in each category regarding the courses required for a major in a department or program [B3 a 1 through B3 dd 1]? (In each case ignore the number 2 [No] responses)
35. Rank the undergraduate courses offered in 1999-2000 (listed in B1a through dd) according to the number of times each course was checked.

Enrollment

36. What is the total department enrollment in 1999-2000 as indicated by the responses to C2a [the sum of the numbers]?
37. What is the total department enrollment in 1996-1997 as indicated by responses to C2b [the sum of the numbers]?
-

Measures of Central Tendency: Mean and Median Responses

38. What is the mean and median response to the types of undergraduate courses offered [B2 a through B2 dd]?
39. What is the mean and median response to the total department enrollment in 1999-2000 [C2 a]?
40. What is the mean and median response to the total department enrollment in 1996-1997 [C2 b]?
41. What is the mean and median response to the total number of courses that an undergraduate major in religion must complete [C4]?
42. What is the mean and median response to how many undergraduates majored in religion in 1999-2000 [C7 a]?
43. What is the mean and median response to how many undergraduates majored in religion in 1996-1997 [C7 b]?
44. What is the mean and median response regarding the number of undergraduate majors who received a bachelor's degree from an institution in each of four categories [C8 a and C8 b and C8 c and C8 d]?
-

Required Religion Courses

45. What is the total number of institutions that require that students take courses in religion in order to graduate [A4 1]?

APPENDIX C: Carnegie Classification of Institutions of Higher Education²

Definitions of Categories

The 1994 Carnegie Classification includes all colleges and universities in the United States that are degree-granting and accredited by an agency recognized by the U.S. Secretary of Education.

Research Universities I (11): These institutions offer a full range of baccalaureate programs, are committed to graduate education through the doctorate, and give high priority to research. They award 50 or more doctoral degrees¹ each year. In addition, they receive annually \$40 million or more in federal support.²

Research Universities II (12): These institutions offer a full range of baccalaureate programs, are committed to graduate education through the doctorate, and give high priority to research. They award 50 or more doctoral degrees¹ each year. In addition, they receive annually between \$15.5 million and \$40 million in federal support.²

Doctoral Universities I (13): These institutions offer a full range of baccalaureate programs and are committed to graduate education through the doctorate. They award at least 40 doctoral degrees¹ annually in five or more disciplines.³

Doctoral Universities II (14): These institutions offer a full range of baccalaureate programs and are committed to graduate education through the doctorate. They award annually at least ten doctoral degrees-in three or more disciplines-or 20 or more doctoral degrees in one or more disciplines.³

Master's (Comprehensive) Universities and Colleges I (21): These institutions offer a full range of baccalaureate programs and are committed to graduate education through the master's degree. They award 40 or more master's degrees annually in three or more disciplines.³

Master's (Comprehensive) Universities and Colleges II (22): These institutions offer a full range of baccalaureate programs and are committed to graduate education through the master's degree. They award 20 or more master's degrees annually in one or more disciplines.³

Baccalaureate (Liberal Arts) Colleges I (31): These institutions are primarily undergraduate colleges with major emphasis on baccalaureate degree programs. They award 40 percent or more of their baccalaureate degrees in liberal arts fields⁴ and are restrictive in admissions.

² Source: <http://www.aarweb.org/departments/carnegie.asp>

Baccalaureate Colleges II (32): These institutions are primarily undergraduate colleges with major emphasis on baccalaureate degree programs. They award less than 40 percent of their baccalaureate degrees in liberal arts fields⁴ or are less restrictive in admissions.

Associate of Arts Colleges (40): These institutions offer associate of arts certificate or degree programs and, with few exceptions, offer no baccalaureate degrees.⁵

Specialized Institutions

These institutions offer degrees ranging from the bachelor's to the doctorate. At least 50 percent of the degrees awarded by these institutions are in a single discipline. Specialized institutions include:

Theological seminaries, Bible colleges and other institutions offering degrees in religion (51): This category includes institutions at which the primary purpose is to offer religious instruction or train members of the clergy.

Medical schools and medical centers (52): These institutions award most of their professional degrees in medicine. In some instances, their programs include other health professional schools, such as dentistry, pharmacy, or nursing.

Other separate health profession schools (53): Institutions in this category award most of their degrees in such fields as chiropractic, nursing, pharmacy, or podiatry.

Schools of engineering and technology (54): The institutions in this category award at least a bachelor's degree in programs limited almost exclusively to technical fields of study.

Schools of business and management (55): The schools in this category award most of their bachelor's or graduate degrees in business or business-related programs.

Schools of art, music, and design (56): Institutions in this category award most of their bachelor's or graduate degrees in art, music, design, architecture, or some combination of such fields.

Schools of law (57): The schools included in this category award most of their degrees in law. The list includes only institutions that are listed as separate campuses in the 1994 Higher Education Directory.

Teachers colleges (58): Institutions in this category award most of their bachelor's or graduate degrees in education or education-related fields.

Other specialized institutions (59): Institutions in this category include graduate centers, maritime academies, military institutes, and institutions that do not fit any other classification category.

Tribal colleges and universities (60): These colleges are, with few exceptions, tribally controlled and located on reservations. They are all members of the American Indian Higher Education Consortium.

Notes on Definitions

¹Doctoral degrees include Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. in any field.

²Total federal obligation figures are available from the National Science Foundation's annual report called Federal Support to Universities, Colleges, and Nonprofit Institutions. The years used in averaging total federal obligations are 1989, 1990, and 1991.

³Distinct disciplines are determined by the U.S. Department of Education's Classification of Instructional Programs 4-digit series.

⁴The liberal arts disciplines include English language and literature, foreign languages, letters, liberal and general studies, life sciences, mathematics, philosophy and religion, physical sciences, psychology, social sciences, the visual and performing arts, area and ethnic studies, and multi- and interdisciplinary studies. The occupational and technical disciplines include agriculture, allied health, architecture, business and management, communications, conservation and natural resources, education, engineering, health sciences, home economics, law and legal studies, library and archival sciences, marketing and distribution, military sciences, protective services, public administration and services, and theology.

⁵This group includes community, junior, and technical colleges.

A Note on Changes in Carnegie Classifications

The Carnegie Endowment revises institution classifications at regular 5-7 year intervals. Carnegie issued an interim update to its 1994 classification in 1997. The 1997 update, affecting classifications for 22 institutions, has been incorporated in the 1998 institution crosswalk distributed with the Doctorate Records File data set.
